Guidelines

- This template should be used for project powerpoint presentation
- This has all the basic slides required to evaluate your project.
- Any extra information (like simulation results, survey database etc.) can be added as appropriate.
- Do not remove any slides from template but you can add multiple slides.
- Limit your presentation to 20-25 slides only.

Project Title

Mini Project Industrial Iot lab , SEM: V

Team Members Name

Guide Name

Session 2026-27

Department of Robotics and AI Engineering

Problem Statement/objectives

Problem Statement(Should be different than Project title):

Project Objectives:

1

2

3

Existing Solutions/Literature Survey

- Summary of the survey can be included.

Proposed solution

- Describe the proposed solution

Block Diagram

Description of Block Diagram

Describe the functionality of building blocks.

Results (Intermediate results/simulation results)

Feasibility Analysis

Innovation or Uniqueness of the solution

Impact or Usefulness of the solution

Summary
